[Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Objective

Motivated full-stack developer skilled in the MERN stack. Experienced in building scalable and user-friendly web applications using modern tools and frameworks. Strong in JavaScript, problem-solving, and teamwork. Eager to learn, grow, and contribute to a dynamic development team through an internship or entry-level role.

Technical Skills

Frontend: React.js, Redux, Tailwind CSS, HTML, CSS, JavaScript

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB (Compass, Atlas)

Tools & Platforms: Git, GitHub, Postman, VS Code

Familiar With: TypeScript, PostgreSQL, Firebase, Docker

Projects

Little Hope – Kids Fashion E-commerce

[Source Code](#) | [Live Link](#)

Developed a MERN stack web app for kids' fashion with clean architecture. The app is mobile-first and fully responsive. Both frontend and backend are hosted on Vercel. Integrated Cloudinary for image storage, Nodemailer for OTP verification, and JWT for authentication. Features include Add to Cart, Sort & Filter, Wishlist, Place Order, Order Management, Coupon system, and a full Admin panel for complete access.

Thanaf Watches – Watch E-commerce Platform

[Source Code](#)

An e-commerce watch-selling platform built using EJS, Node.js, Express, MongoDB, and Bootstrap. Integrated Razorpay for payment processing and Nodemailer for OTP-based authentication. Fully responsive design with features like Add to Cart, Place Order, Order Management, Coupon, Refer & Earn, Filter & Sort, and a dedicated Admin panel.

Mini Projects

Netflix Clone – React.js, Tailwind CSS, Firebase

Crypto Price Tracker – EJS, Express, Node.js, Crypto Live Price API

Facebook Static Clone – HTML, CSS

Education

Higher Secondary (Biology Science) – KPES HSS Kayakkody (2020–2022)

Web Development – Brototype, Calicut (2023–2024)

Language

English
